

06-07 MAY 2026

Join the 12TH Mozambique Mining and Energy Conference and Exhibition

MMEC 2026: Where Partnerships Meets Transformation 06-07 May 2026 • Joaquim Chissano International Conference Centre, Maputo, Mozambique

Mozambique is entering a decisive moment, one where natural resources, strategic partnerships, and regional collaboration can shape a new era of inclusive, sustainable growth. MMEC 2026 will open with a powerful high-level roundtable that puts this transformation into focus.

Association Partner

Opening Panel: Partnerships for Transformation

This flagship session "Harnessing Natural Resources for Economic Diversification, Inclusive Growth and Regional Integration" will bring together government leaders, mining and energy executives, investors, and regional development partners to unpack the policies, partnerships, and project pipelines needed to drive Mozambique's industrial future.

What's on the agenda?

- Enabling policies and predictable regulation
- Building regional value chains across mining, energy, logistics and industry
- PPPs, blended finance and the role of regional DFIs
- Local content, SME linkages and women/youth inclusion
- Joint project pipelines backed by actionable coordination mechanisms

This is where dialogue becomes strategy, and strategy becomes implementation.

Examples of Transformation Already Underway in the country

MRG Metals & Sinowin JV – Scaling mineral sands production up to 440,000 t/year and deepening downstream capabilities through cross-border investment.

Green Energy Mozambique Industrial Park (US\$ 3bn) – A major new hub in Sofala that anchors manufacturing, beneficiation and local job creation.

Metoro–Montepuez–Marrupa Transmission Line (220 kV) – A strategic power corridor enabling regional value chains and industrial growth across northern provinces.

Ancuabe Graphite Project JV – A critical-minerals partnership advancing downstream processing and aligning with Mozambique's beneficiation ambitions.

Why You Should Attend?

MMEC 2026 brings together:

- High-level decision-makers
- Investors and financiers
- Industry leaders across mining, energy, and infrastructure
- Regional and international partners
- 11 panel discussions, exhibitions and exclusive networking
